

## BizFAX- Business Standalone FAX Server

BizFAX Client is a virtual fax extension that works with BizFAX Server. Not only receive fax automatically and save it as electronic file, but also make outbound call manually and automatically to send a fax.

BizFAX contains a BizFAX Printer module and a BizFAX Editor module. BizFAX Printer can easily convert documents as doc, xls or pdf to tiff format; BizFAX Editor helps user to dramatically improve the efficiency in doing office works like make annotations, signature and stamp on a document.

**BizFAX family consist of 2 models that are E100, E200. BizFAX can easily meet the unique requirements of different sizes of companies.**

According to the survey of existing BizFAX Standalone Fax Server users, and compared with the traditional fax-machine, it can save 98% of the paper consumed by faxes. No need to worry about the invasion of useless advertisements. It is a one-time but affordable investment which helps realizing the relaxed, convenient, clean and efficient official working environment from then on.
